KLCC ACADEMY

Microsoft Excel Mastery Bootcamp

Essentials to Advanced

Introduction

This intensive two-day training is designed to transform participants from casual Excel users into power users. From mastering essential functions and formulas to leveraging advanced data analysis and visualization tools, this course offers a deep dive into Excel to enhance workplace efficiency and decision-making.

Course Objectives

1 Master Excel's user interface and fundamental operations.

2 Gain proficiency in a wide range of functions and formulas.

3 Learn to manipulate and analyze large datasets with PivotTables and advanced charting.

4 Understand how to automate repetitive tasks using macros.

5 Develop the ability to create dynamic reports and dashboards for professional presentation.

6 Equip participants with the analytical tools within Excel to make informed decisions, backed by data visualization and trend analysis techniques.

Course Benefits

- **Skill Enhancement:** Elevate your Excel skills to expert level, enabling sophisticated data analysis and problem-solving.

- **Productivity Boost:** Learn shortcuts and automation techniques that save time and enhance workflow efficiency.

- **Career Advancement:** Advanced Excel skills are highly sought after in many fields, opening doors to new job opportunities and promotions.

Course Modules

1

Basic Excel Functionalities and Spreadsheet Management

- Navigating the Excel interface
- Basic operations: entering data, using cell references, and applying basic formulas
- Formatting spreadsheets for readability and professional presentation

2

Key Formulas and Functions

- Vocabulary Expansion Techniques
- Grammar Fundamentals
- Idioms and Phrasal Verbss

3

Data Organization Techniques

- Sorting and filtering data for efficient analysis
- Basic data validation to ensure data integrity
- Introduction to conditional formatting for dynamic visual data presentation

4

Advanced Data Analysis with PivotTables and PivotCharts

- Creating and customizing PivotTables for multi-dimensional data analysis
- Generating PivotCharts from PivotTables for graphical data insights
- Advanced techniques for slicing and dicing data to uncover trends

5

Introduction to Macros and Simple VBA Scripts

- Recording and editing macros to automate repetitive tasks
- Introduction to VBA scripting to extend automation capabilities
- Debugging common issues in macros for smooth execution

6

Advanced Reporting with Dynamic Charts and Dashboards

- Designing dynamic charts to adapt to data changes
- Constructing interactive dashboards for business analytics
- Best practices for maintaining and updating Excel dashboards

Who Should Join This Course

→ **Professionals across various sectors looking to boost their analytical skills.**

→ **Students and academic researchers needing to manage large datasets.**

→ **Any Excel user wishing to upgrade their skills from basic to advanced levels.**

→ **Data Analysts and BI Professionals: Ideal for those who rely heavily on Excel for daily data analysis, reporting, and visualization tasks.**

BASIC PRINCIPLES FOR COURSE IMPLEMENTATION

Structured Progression

- Each module should build logically on the last, starting with foundational Excel skills before moving to advanced techniques, ensuring a smooth learning curve.

Hands-On Learning

- Incorporate extensive practical exercises and real-world case studies to reinforce theoretical knowledge and demonstrate Excel's practical applications.

Participant Engagement

- Engage participants through interactive discussions, Q&A sessions, and group activities to enhance understanding and retention of course material.

Feedback Mechanism

- Implement regular feedback sessions to assess understanding and satisfaction, allowing for course adjustments and addressing participant concerns in real-time.

Continuous Improvement:

- Post-course evaluations should be used to refine the curriculum and teaching methods based on participant feedback and the evolving capabilities of Excel.

Who We Are

KLCC ACADEMY an Accredited Education Centre in Malaysia - provides an enriched learning environment that has helped countless students get ahead. Founded in 2013, the Academy is in heart of Kuala Lumpur near the iconic KLCC - Petronas Twin Towers (distance of 500m) and reflects the diverse backgrounds and cultures of the area.

We believe that education is a fundamental right, and everyone should have access to quality higher education. With this view in mind, we strive to create opportunities for those who have genuine aspiration and honest intention, who seek high-quality education, great academic experience, unparalleled student services, globally recognizable qualifications, and career prospects post qualification after studying in their chosen destination countries.
